The Chardon Polka Band

This delightfully eccentric gang is among the greater Cleveland area's most recognizable performers. The band's range of style is as equally eccentric as its members. The band plays traditional polkas reminiscent of "The Lawrence Welk Show", a style that has endeared them to traditional polka fans, but sometimes morphs into punk-rock renditions of the same songs. They throw in comedic renditions of oddball favorites, bizarre audience participation songs, and even polka-rock covers of anything from Twisted Sister's "We're Not Gonna Take It" to Queen's "Fat Bottomed Girls" to Lady Ga Ga's "Bad Romance"!

July 28

Vanity Crash

Born on stage under hot lights in the crucible of sound and fury. Creating punk spunk and glam clamor. Come enjoy Vanity Crash's outrageous costumes and provocative attitude. "One of the only bands on the local circuit that keeps the glam rock flame burning brightly."

FM77

Take a trip back in time to the year 1977 as FM77 performs hits you were listening to on your FM dial back then (plus 1978, 1979, and some early 80's because it's great stuff too). Through the combination of musicianship and technology these musicians reproduce many songs you don't hear other bands play. From their Fleetwood Mac tribute blocks to all the great music from the 70's era, they bring back memories of those fabulous times. FM77 features four uniquely powerful vocalists enabling them to cover a wide variety of songs. All members of FM77 are seasoned musicians who have been playing in local bands for over 30 years.
